

8-2 Cyber Playbook Submission

Joshua Merren

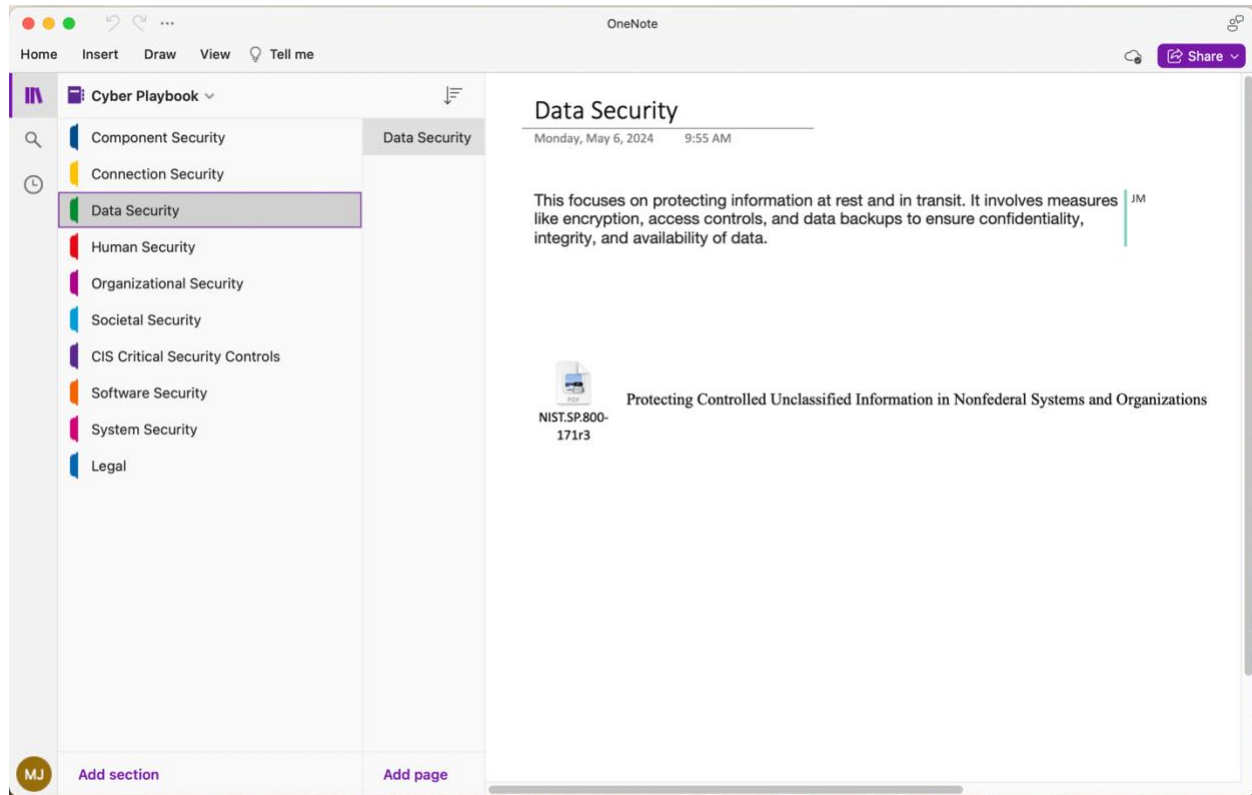

Southern New Hampshire University

CYB-230-11349-M01 Operating System Security C-3

Professor Joshua Brogdon

27 June 2024

1. Submit a screenshot of the item that you feel is the most valuable to you (now or in the future) and explain your reasoning.

I chose the "Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations" resource because it teaches me how to keep important information safe outside government systems. This is important because it helps me understand how to prevent leaks and unauthorized access to sensitive data. Knowing these rules is essential for any job I might take in cybersecurity, especially in private companies. It also helps me build trust by showing me how to handle their information correctly. Overall, this resource is helpful for my future career in protecting information.
