11 June 2024

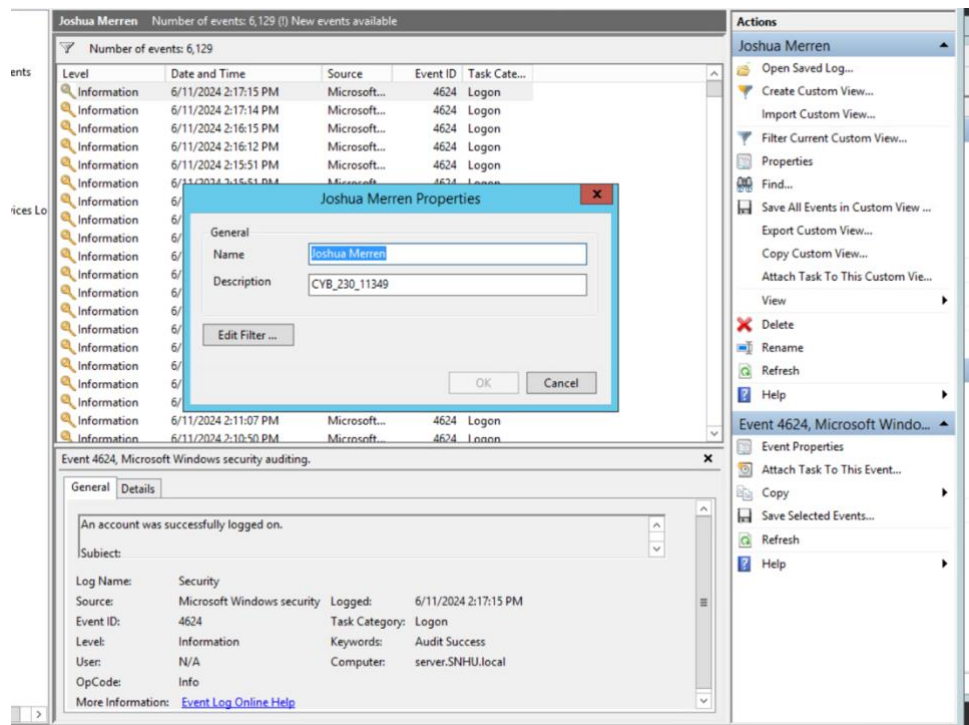

I. Server Configuration Verification Report

A. Old Server Tasks

1. Configure Task Scheduler to **back up** the old server. Provide a screenshot of the Task Scheduler summary screen.

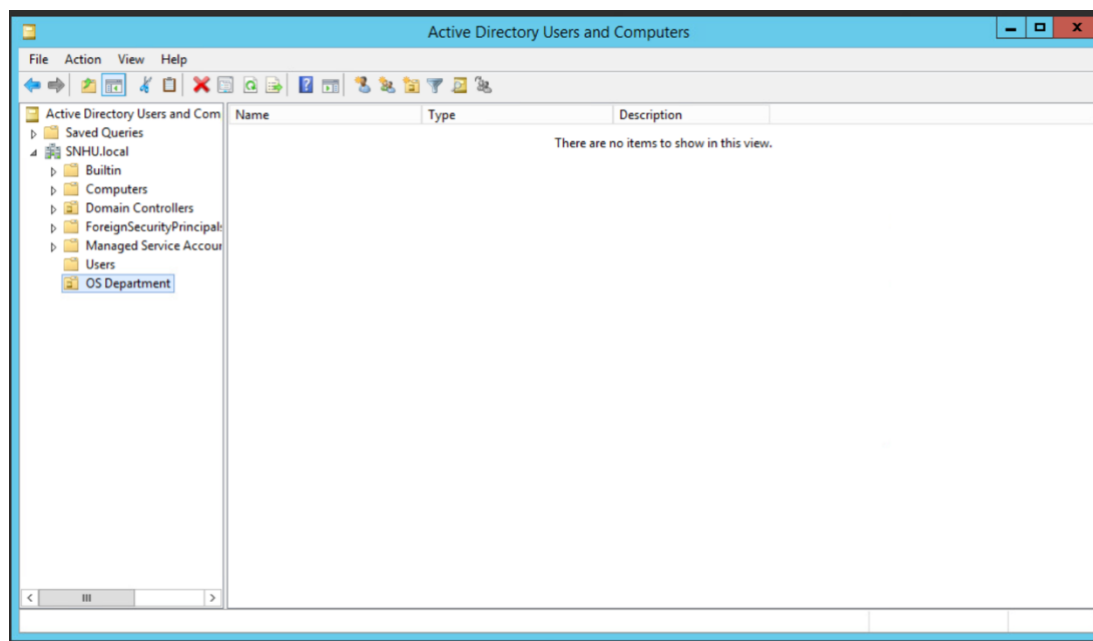

2. Configure a **trigger** for event ID 4624 in the Task Scheduler on the old server to meet the scenario requirements. Provide a screenshot of the Event Viewer custom view.

B. New Server Configuration

1. Create a **new organizational unit (OU)** to meet the scenario requirements. Provide a screenshot of the unit in the Active Directory tree.

2. Create **new users** and add them to the new OU to meet the scenario requirements. Provide a screenshot of the users in the Active Directory tree.
